

When it comes to sweeping and vacuuming there are fresh winds blowing – the Wetrok winds

Whether the Speedmatic Twister, the Tornado or the Zyklon – all three mechanical sweepers give top performance in their class. And these winds don't throw up any dust or dirt – they just get rid of it. Rapid and efficient, powerful and thorough... And best of all, each of the three machines is easy to operate, easy to manoeuvre and attractively priced. The Wetrok winds will put clout into your cleaning!

... And all this with tried and tested Wetrok quality...

Whichever of the three mechanical sweepers you choose, the quality is something you can count on – and you can also be sure of an excellent cost-benefit ratio. Whether you go for the Twister, the Tornado or the Zyklon – Wetrok gives your cleaning a boost, so you can really put the wind in your sails.

Speedmatic Twister,
Tornado and Zyklon.
Boosting your cleaning performance. In next to no time.

Speedmatic Twister:
nifty as a whirlwind – and compact

The Speedmatic Twister is speedy and compact – and it sweeps over an impressive width of 780 mm. In spite of its light weight it has everything you could wish for, even including a battery charger. The battery activates the sidebrooms, the rotating cylindrical brush and the vacuuming system and gives you a powerful drive.

Efficient

- More cleaning in less time
- Polyester filter for damp sweepings
- Battery power means low noise and no emissions

Convenient

- Easy to manoeuvre, even in corners and confined spaces
- Battery charging unit included as part of the sweeper

Smart

- Compact push sweeper for narrow passages and confined forecourts
- Maximum performance for the price
- Needs little servicing, is practically always ready to use

Speedmatic Tornado:
swift as the wind – up there with Formula One

This ride-on machine – the compact variant in its class – is perfectly easy to pilot around. And you can cover the ground in next to no time – even when going uphill. This saves you time and increases your productivity. The Speedmatic Tornado sweeps efficiently and thoroughly – all this with tried and tested Wetrok quality.

Clever

- The compact ride-on machine of its class
- Ideal cost-benefit ratio
- Easy to service thanks to its well thought out structure

Convenient

- Manageable, easy to operate and to manoeuvre
- Comes in a petrol version and in a battery version for low-noise operation
- Powerful traction motor (hydrostat) as an accessory for gradients up to 16%

Powerful

- High speed operation saves loads of time
- Polyester filter for damp sweepings
- Protected against knocks with oscillating side brushes

Speedmatic Zyklon:
a mighty storm – and the dirt is gone

With the Speedmatic Zyklon, you can combat dirt with a vengeance. Even a lot of waste on extensive surfaces can be efficiently got rid of. With its powerful torque, the diesel engine offers top performance and a long operating time.

Convenient

- Easily manageable and easy to operate
- Large capacity means it can be used for long periods
- Dirt container lifts hydraulically for emptying

Power

- The powerful and robust machine for large areas
- Can handle loads of dirt without flinching
- Simple servicing thanks to easy machine access

Stamina

- Powerful diesel drive
- Large, washable filter surface made of polyester
- Maximum cleaning performance, thanks to its sophisticated vacuuming system

Can also be used indoors

The Speedmatic Twister can be adapted for use with a carpet brush. This means it is capable of sweeping textile floor coverings, and it can clean even large areas without any problem. As it runs on battery power, it is almost soundless and without has no exhaust – making it ideal for enclosed spaces.

Stamina and quiet performance

The Speedmatic Tornado comes either with a petrol engine or with a battery drive. This efficient unit can be used for long periods without need of a break – and with battery power, the Speedmatic Tornado makes your cleaning a quiet but effective breeze.

Just hit the lever

when the capacious dirt container of the Speedmatic Zyklon is full for effortless emptying. , you can empty it without any muscular exertion. When you operate the lever the dirt container lifts hydraulically, so that you can easily tip the content into the waste bin.
