Discomatic Bolero 10 and 20: un todo terreno 2 en 1

En un mundo donde los ciclos de cambio son cada vez más cortos, definitivamente necesitamos una cosa: versatilidad. Esa es exactamente la razón por la que Wetrok desarrolló la innovadora y única Discomatic Bolero. Dos tanques en diferentes tamaños para poder reemplazarlo sin herramientas, asegura un cambio rápido de un área de aplicación a la siguiente. Los tiempos para elegir entre una fregadora para áreas de tamaño mediano y un modelo compacto con poca altura al suelo finalmente han terminado. Una nueva era de la versatilidad está aquí y ahora.

Dos tanques reemplazables,
un chasis:

TANQUE 10 LITRO:

para una limpieza eficiente de los bordes

La distancia baja al suelo extra, permite que la máquina compacta deje áreas difíciles de alcanzar debajo de bancos y muebles impecablemente limpios. Operación de empujar y tirar. No quedará ni una gota de agua y suciedad debajo de los muebles.

TANQUE 20 LITROS:

Para limpieza de áreas pequeñas y medianas.

Un cambio rápido del tanque hará que la máquina se convierta en la versión maxi, lista para crear un nuevo nivel de higiene en todas las áreas de los bordes súper rápido.

New technologies, new comfort

Users can attach and remove suction nozzles using magnetic force, eliminating the need for tools and time-consuming work steps. Replacing the squeegee blades is now easier than ever: They simply click into place.

Spot on – Dirt gone

The Bolero's sophisticated LED light system is a true market sensation. Now there is no chance for dirt to be overlooked in the tiniest corner or where ambient light is insufficient – the bright LED light leaves nothing to chance.

By the way...

No tools are needed for the mounting or removal of the tanks, squeegee blades and suction nozzles.

Three machines, one mission: helping the user

Discomatic Mambo and Bolero 10 and 20 – three scrubber-drier machines that set the rhythm for endurance and versatility in facility cleaning. Equipped with plenty of user-friendly extras, these machines are easy to handle and transport. Two of the most notable features are the height-adjustable upright handle and the load-bearing support wheel at the front. For uninterrupted cleaning cycles.

State-of-the-art circular brushes instead of coarse rollers

Two circular brushes create the necessary brush pressure and relieve strain on the machine user: the machine basically drives itself.

Effortlessly from A to B

The load-bearing support wheel at the front makes moving the machine from one area to the next a breeze.

Your benefits at a glance

Discomatic Bolero: the 2-in-1 all-rounder

- **versatile:** two tank sizes, two working directions (forward and backward)
- **time saver:** easy and quick attachment exchanges with state-of-the-art magnetic technology
- **thorough:** extra bright LED front light for easy dirt detection

Discomatic Mambo: the performance athlete

- **performant:** excellent area performance due to large working width
- **powerful:** long-life battery for uninterrupted work cycles
- **customized:** with optional integrated dosage system

Discomatic Mambo: the performance athlete

Discomatic Mambo is the latest power machine to join the Discomatic product family. Many satisfied customers nationally and internationally are now using Discomatic Mambo, a machine that is virtually unbeatable in terms of performance and stamina. The large working width and amazing long-life battery of the Mambo guarantee excellent cleaning results from the smallest to the largest areas.

Operation made simple

There are only four buttons on the display, making operation intuitive and eliminating lengthy training sessions.

Height-adjustable upright handle

Users can simply extend or lower the working height of the upright handle to suit their stature.

Premium battery included

The integrated lithium-iron phosphate battery is the safest lithium battery on the market and offers an up to four times longer lifespan than traditional lead batteries.

A new agility

Narrow corridors with very little space to turn around are par for the course for Discomatic machines. These machines are super agile and nimble around furniture as well.

Discomatic Mambo: winner of the Interclean Innovation Award

Plenty of cleaning in no time at all

The Mambo can easily compete with the cleaning power of large scrubber-driers – despite its compact size.

Uninterrupted work cycles

The 30-litre tank, combined with an above-average battery life, ensures longer, uninterrupted cleaning sessions.

Dosing is the key

Mambo can optionally come equipped with a fully integrated dosage system as well, which will ensure a 100% perfect water-chemicals ratio at the push of a button.
